This report is the final result of the meeting held between the projects on cultural tourism funded under the Horizon 2020 calls: Be.CULTOUR, TEXTOUR, SPOT, IMPACTOUR, Smart CulTour and INCULTUM. The two meetings between the project coordinators addressed key issues in three areas: Europeanisation and European policies, research and innovation, and sustainability and infrastructures.

As the report is shared between the six sister projects, the drafting of the report has also been shared and the full report is available on the INCULTUM project website:
